

## SFS CPD / Refresher Online Courses

SFS online Continuing Professional Development (CPD) / Refresher courses have been specifically designed to broaden and develop professional and technical skills of verifiers to maintain and enhance different aspects of their verification practices.

## CPD Capability Framework

The format of the training is aligned with the learning and development activities stipulated within the CPD capability framework.

Knowledge and expertise gained from these courses may be used as demonstration of verifiers learning outcomes as per the requirement of the CPD points activities allocation.

## CPD Completed Plans

In addition to several supporting downloadable resources per course, each course comes with an example of completed CPD plan.

This completed plan details the learning objectives which are covered per course. It takes into consideration how these learning pathways will be monitored and how they may be applied to individual's verification practice. CPD activities and collection of points may be achieved for formal learning programmes, peer and shadow focus activities

## SFS Annual Subscription

SFS are offering an annual subscription for access to online / refresher training courses 24/7 over a 12-month period. An annual subscription includes:

- ✓ Continuous access to a personalised training portal, online courses, resources, completed CPD plans, checklists, assessment statistics, downloadable certificates.
- ✓ Access to a minimum of 6 online courses per year.
- ✓ Courses discounted to \$100 per person. Minimum cost saving of \$57 per course per person.
- ✓ Annual subscription can start at any time during the year and businesses / councils may select courses available or anticipated to be released to be included within their plan.
- ✓ Discounts available on annual fees for NZIEH members.
